Subject: Public Notice of Proposed Issuance of National Pollutant Discharge Elimination System (NPDES) Permits by the State of Hawaii, Chapter 37, Water Pollution Control

The Hawaii State Department of Health has recently been given the authority by the Administrator of the U.S. Environmental Protection Agency to issue and enforce waste discharge permits under the subject system. The NPDES system as authorized under the Federal Water Pollution Control Act Amendments of 1972, PL 92-500, is the national system for the issuance of permits under Section 402 of the Act and includes any state program which has been approved by the Administrator, in whole or in part, pursuant to Section 402 of the Act.

In this regard, we are developing a mailing list of concerned persons, groups or government agencies to circulate public notices of applications for NPDES permits. If you are interested in receiving public notice of applications for NPDES permits in any of the following categories, please indicate as such and return the enclosed questionnaire to the Pollution Technical Review Branch, Environmental Protection and Health Services Division, P. O. Box 3378, Honolulu, HI 96801, as soon as possible.

If you have any questions on the subject matter, please contact the Pollution Technical Review Branch at telephone 548-6410. Thank you for your cooperation.

TO ALL COMMENTING AGENCIES:

The Pollution Technical Review Branch of the Department of Health has received a request for a permit to discharge into the waters of the United States, under the National Pollutant Discharge Elimination System (NPDES), from the applicant shown on the enclosed carbon copy. Enclosed is a copy of the application and draft permit for your Agency's review. If no response from your Agency is received within 30 days, we will conclude that your Agency has no objections to this proposed permit.

Sincerely,

---

Dear

The *State of Hawaii, Department of Health* is presently considering your application for a National Pollutant Discharge Elimination System (NPDES) permit to discharge to waters of the United States.

We consider the following application to be complete and propose to issue the enclosed draft permit to:

Within 30 days we plan to issue a public notice of the proposed actions regarding the application. If the public notice generates sufficient interest, a public hearing will be held. We would appreciate any comments you have regarding the proposed actions prior to the time of public notice, if possible. Comments will be received for a period of 30 days following the public notice.

Please contact the NPDES project management group of the Pollution Technical Review Branch at 548-6410 if you have any questions about the application form, filing requirements or enclosed material.

Sincerely,

WALTER B. QUISENBERRY  
Director of Health
